Ms. Tonya Hay
B & V Waste Science and Technology Corporation
101 North Wacker, Suite 1100
Chicago, Illinois 60606

Dear Ms. Hay:

Thank you for your information request regarding the eight Chicago-area sites. I am replying on behalf of Dr. Deanna Glosser. Enclosed are two lists of element occurrence records including element type (Other Types can be heron rookeries, geological formations, etc.) by named location. Sites are Illinois Natural Areas Inventory sites (NA on map), and managed areas are dedicated Illinois Nature Preserves or state-owned managed areas (MA on map). The Lake Calumet area list includes your first seven sites, and the Venus Lab area list includes the last site on your list. Maps are marked with an X for approximate locations for plants, animals, and communities, and rough boundaries for NAs and MAs; several species may be under one X. Federal species are marked with a circled F.

The information attached summarizes the current information regarding the occurrences of listed species known to the Division of Natural Heritage at the time of the request. Therefore, it should not be considered a final statement regarding Illinois' species, nor should it be a substitute for field surveys required for environmental assessments.

I cannot charge you for the search of our database, but I would like to welcome your support of the Illinois Natural Heritage Database by contributing to the Illinois Nongame Wildlife Conservation Fund. Staff time spent in searching the database totalled three hours at \$30.00; therefore, an appropriate donation would be \$90.00. Donations can be mailed payable to the Illinois Nongame Wildlife Conservation Fund and mailed to the Springfield address above.

Sincerely,

Susan D. Holmes

B & V Waste Science
101 North Wacker, Suite 1100
Chicago, IL 60606

Dear Mr. Noyes:

This is in reply to your February 19 request for information about endangered species in the vicinity of several sites in the Lake Calumet and Calumet City areas.

Our files show that information on this same area was provided to Ms. Tonya Hay of your firm on February 16. A copy of our letter to Ms. Hay is enclosed. To avoid duplication of effort by everyone involved, we suggest that you obtain the needed information from Ms. Hay's files.

If your information need is for a different area or if information other than that provided to Ms. Hay is needed, please contact us at (217) 785-8290.

Sincerely,

Glen Kruse
Project Manager

ENDANGERED SPECIES CONSULTATION AGENCY ACTION REPORT

Date Submitted:

2-19-93

PROJECT CODE: 3112-13-14
Date Due: 2/24/93

For Office Use Only

Agency Name: B & V Waste Science & Technology Corp.
Contact Person: John J. Noyes Phone: (312) 683-7829
Agency Address: 101 North Wacker Suite 1100
Chicago IL 60606

DESCRIBE PRECISE LOCATION OF PROPOSED ACTION

County(ies): See Attached Topo's

City/Town: _____

Township/Range/Section: _____

U.S.G.S. Quad Map Name(s): _____

Brief Description of the Proposed Action: Please indicate all
endangered & threatened species within 4 miles of the
site indicated and within 1/4 mile of the frontages
of all water bodies highlighted

Please enclose a map delineating the location of the proposed action.

FOR NATURAL HERITAGE USE ONLY

QUADCODE(S): _____

Are there threatened/endangered species or natural areas located within the vicinity of the project? [Yes | No]

The consultation process is terminated? [Yes | No]

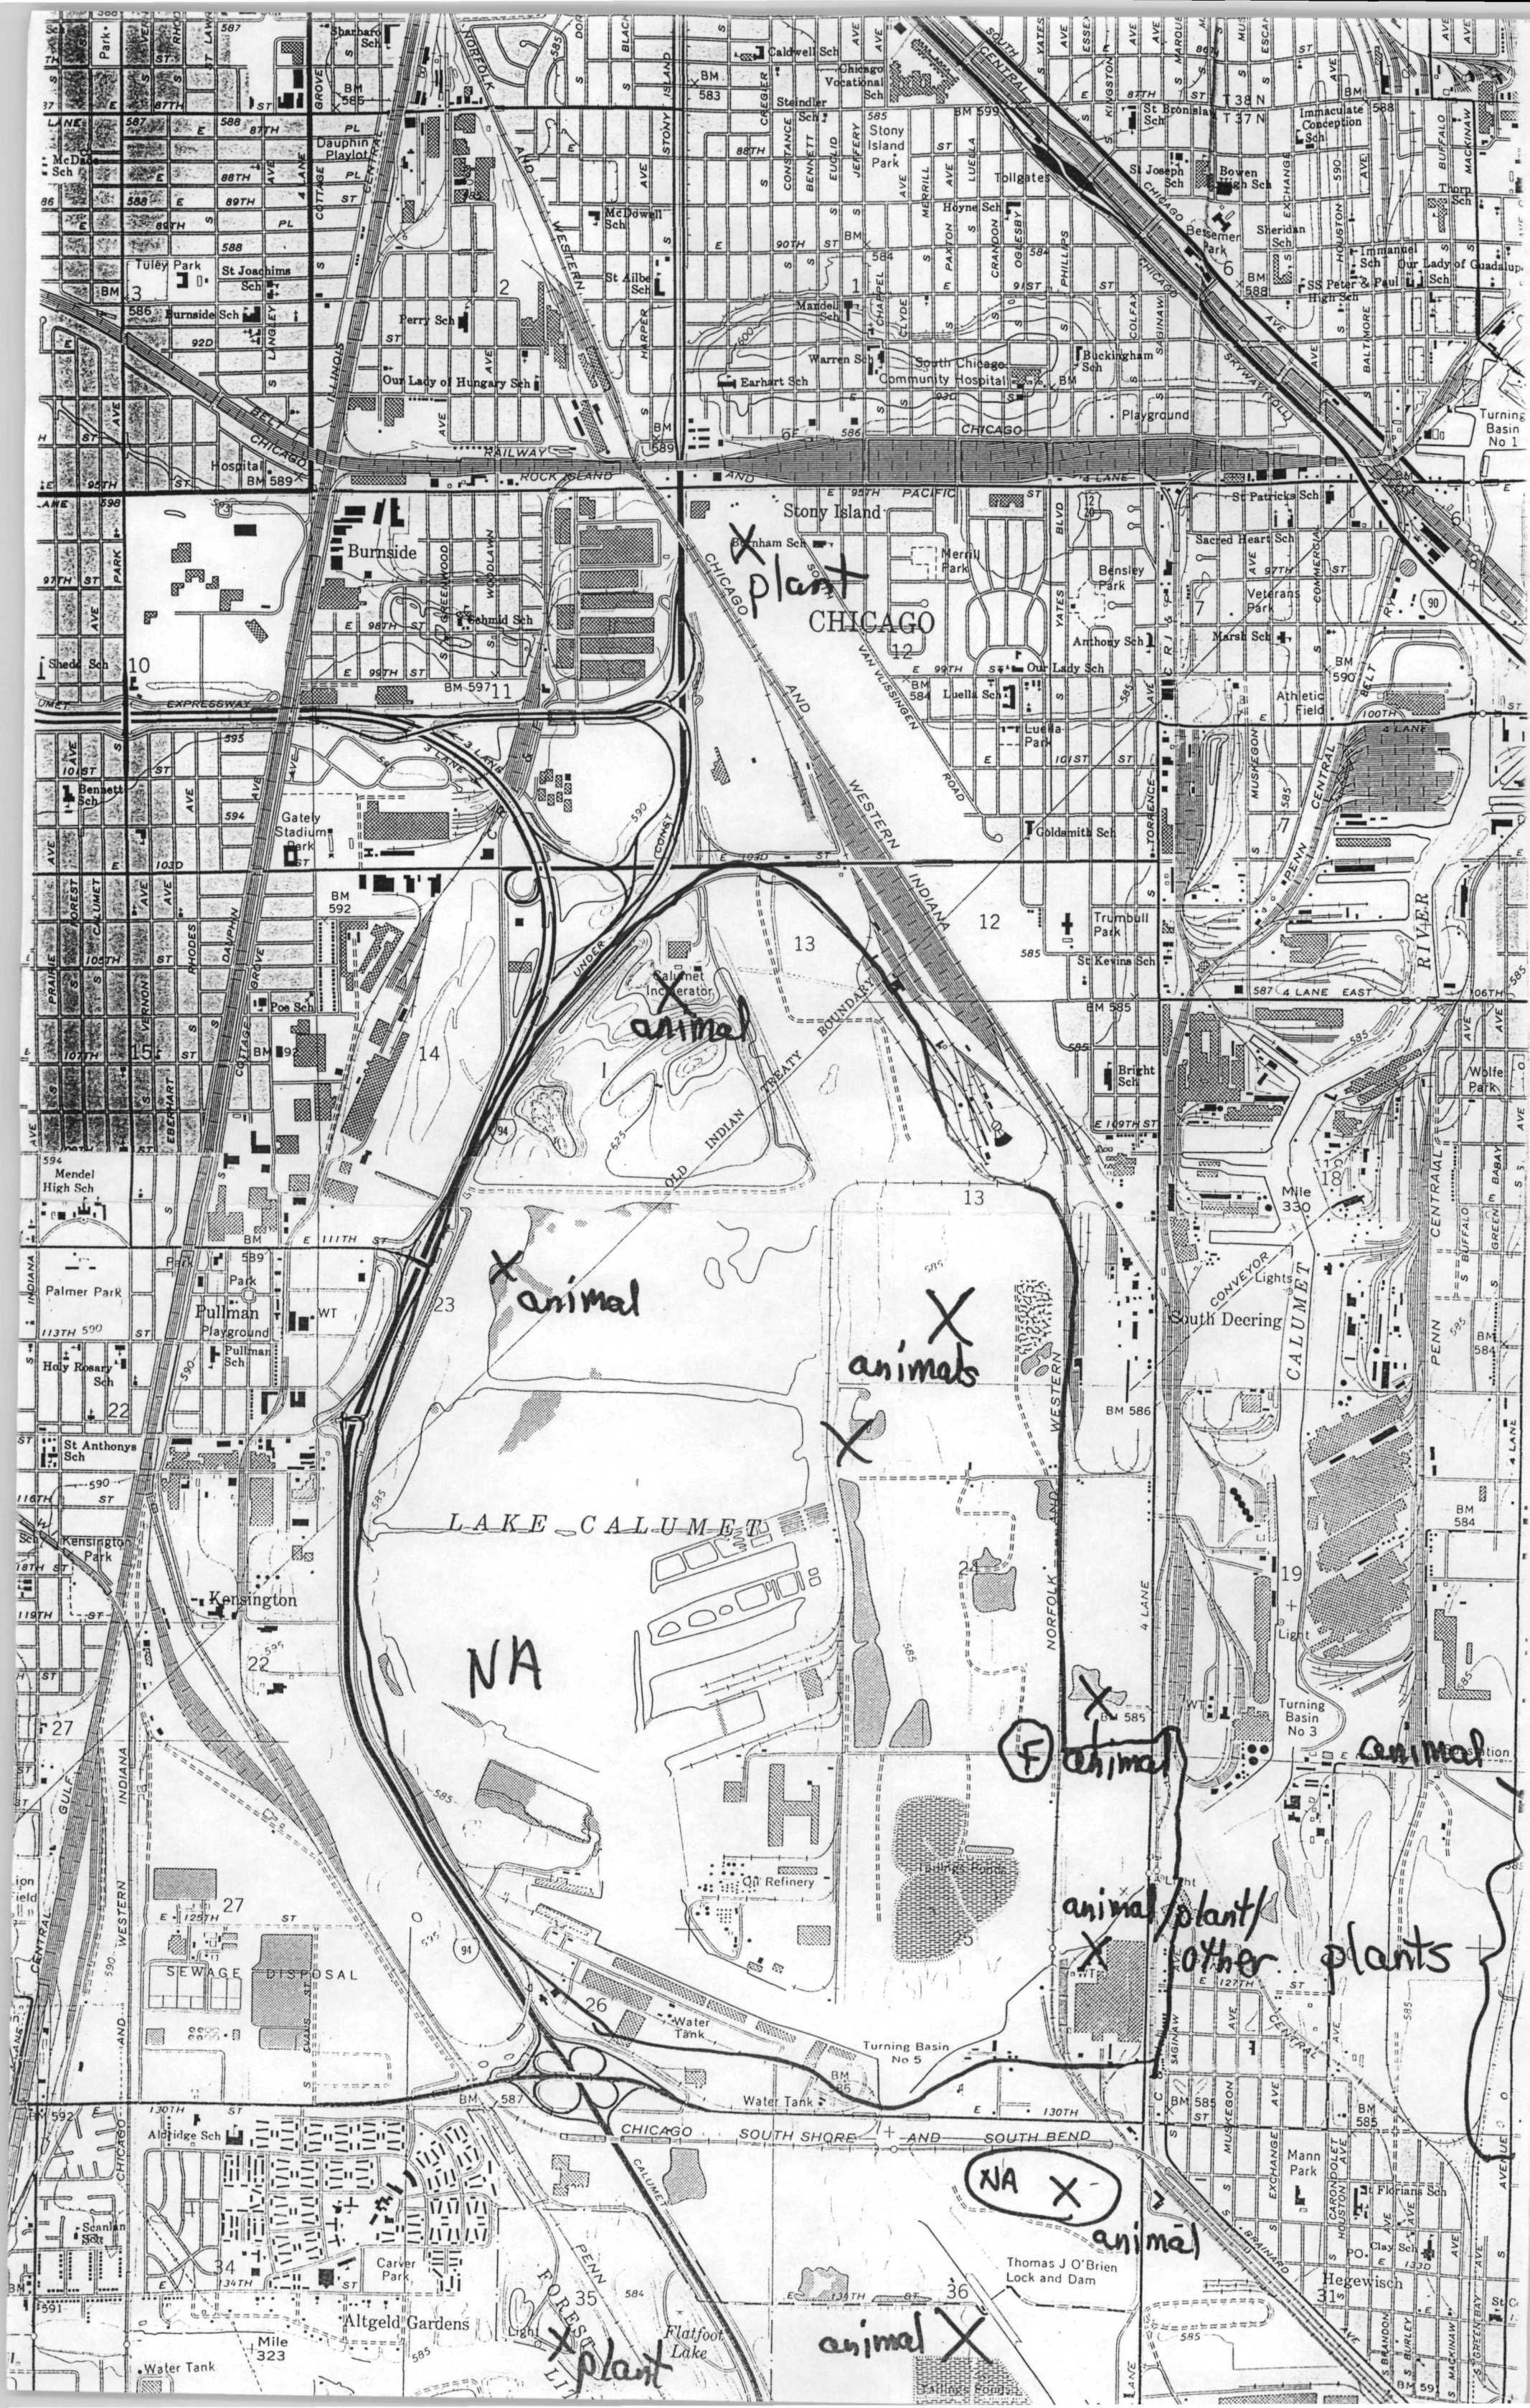

If 'No', complete the enclosed Detailed Agency Action Report to continue the consultation process.

Evaluation Approved by:

Deanna Glosser, Ph.D.

Endangered & Threatened Species Program Manager
